

Privacy Policy for the use of the Tech Data Europe Website

The protection of your personal data is a very important concern for us. This online Privacy Policy is designed to tell you about which data will be collected and used in connection with your visit to this Website and if and how your personal data will be further processed by Tech Data Europe GmbH. Tech Data Europe GmbH ("Tech Data") is the data controller of this website.

For informational use of this website, it is generally not necessary for you to save or store personal information in any profile. We collect and use only the data automatically provided to us by your internet browser. This is inter alia the following data:

- Date and time of accessing one of our websites
- browser type and browser settings
- operating system you are using
- the last page you visited
- the amount of data transferred and the access status (File transferred , file not found, etc.)
- your IP address.

Such data is collected and used in case of informational use of our website only in a non-personally identifiable manner. Such non- personal data is collected and used in order to technically enable your use of our Internet pages at all, as well as for statistical purposes and to improve our Internet services.

Tech Data may disclose information it has collected if required to do so by law, or in good faith if reasonably necessary to (1) comply with legal process, (2) respond to any claims, or (3) protect the rights, property or personal safety of Tech Data, our customers or the public.

Cookies

We use cookies for our website. Cookies are small text files stored on your computer by this for later retrieval that are sent on the occasion of you visiting our website from our web server to your browser. We use temporary cookies - cached only for the duration of your use of our websites - as well as resident cookies which are stored over a longer period of time. The purpose of this cookie is to be able to identify your computer during a visit of our website when changing from one Tech Data website to another of our websites, but also to detect the end of your visit. We also use cookies and the information referred to generally optimize our website.

You can determine by your settings in your browser if cookies are set and retrieved. You can generally disable storing cookies in your browser, restrict to certain sites or configure your browser to automatically notify you when a cookie is set and asks for confirmation to do so. Please note that for technical reasons cookies are necessary in order to provide the full function and the optimal use of our website. A collection or storage of personal data in cookies in this context is not done by us. We do not use any techniques that combine information obtained through cookies with user data.

Security

Tech Data uses technical and organizational security measures to protect our users' personal data. However, the Internet is not a 100% secure medium for communication and, accordingly Tech Data cannot guarantee the security of the information you send to Tech Data via the Internet. Tech Data is not responsible for any loss or damage you or others may suffer as a result of the loss of confidentiality of such information.
